Auctioneers Foreward

J Bradburne Price & Co are delighted to be favoured with instructions from the family of the late Ken Harvey to offer the entire dairy herd for sale, following his recent passing.

The origin of the herd dates back to 1967 when Ken took over the farm from his father who had previously farmed there.

The herd is a closed herd and has been predominantly bred from Holstein Friesian using AI sires.

The herd calves all year round and currently averages around 7000 litres.

During the spring and summer the herd grazes at pasture, and in the winter months the herd is cubicle housed with the winter diet based on grass silage mixed with concentrates down the barrier and concentrates fed to yield in the herringbone parlour where they are milked twice daily.

The herd had a TB test on 4th February 2025 which was clear.

All calves born on the farm are antigen tested using a tag and test system and all have been negative.
